Lipatch

Easy, Effective, Innovative

VITALITY Lifestyle– Lipatch

VITALITY Lifestyle is formulated to enhance overall energy levels and support quality of life. Red ginseng oil helps reduce stress with its adaptogenic effect while strengthening the body's natural resilience. Magnesium glycinate and magnesium malate support muscle function and contribute to energy production. Glucosamine, MSM, chondroitin sulfate, and hydrolyzed collagen help maintain joint health and skin elasticity, supporting mobility and a youthful appearance

FOCUS Patch - Lipatch

FOCUS Patch is designed to enhance mental concentration and support cognitive performance. Ingredients such as Magnesium Malate, Zinc Citrate, Chromium Picolinate, and Omega-3 (DHA and EPA) help support brain energy metabolism, promoting mental vitality; while L-Theanine, 5-HTP, and Lion's Mane mushroom provide calming and focus-enhancing effects on the nervous system. Additionally, M-Molybdenum and 6-N-Acetyl Carnitine optimize nerve transmission, thereby maximizing mental efficiency during intense cognitive processes

SLEEP Patch - Lipatch

SLEEP Patch with Melatonin is formulated to support sleep patterns and promote better rest throughout the night. Ingredients such as melatonin, 5-HTP, and L-tryptophan help regulate the natural sleep cycle, while magnesium glycinate and vitamin B6 (P-5-P) contribute to the proper functioning of the nervous system. Additionally, Matricaria chamomilla and hops extracts help reduce stress, supporting physical and mental relaxation

B COMPLEX Premium Patch

B COMPLEX Premium Patch is formulated to support energy metabolism, nervous system function, and overall vitality with a balanced blend of essential B vitamins. Delivered through advanced transdermal technology, the patch allows direct absorption without burdening the digestive system, providing steady, long-lasting release to help reduce fatigue, promote mental clarity, and maintain optimal cellular function throughout the day.

D3 K2 PRO Patch

D3 K2 PRO Patch is an advanced transdermal formula designed to support vitamin D levels and optimize the calcium–bone balance; while vitamin D3 contributes to healthy immune function, vitamin K2 (MK-7) helps direct calcium to the right places, supporting the maintenance of both bone and vascular health. Its transdermal technology allows the ingredients to be absorbed directly without burdening the digestive system, providing steady, all-day release for easy and consistent support

AirTamer®

The World's Most Effective Personal Air Purifier

AirTamer personal air purifiers clean your air by removing airborne pollutants(e.g. viruses, bacteria, pollen, dust, etc.) away from your personal space. Breathe cleaner, healthier air everywhere you go.

AirTamer A315 Wearable Air Purifier

The AirTamer Advanced A315 is our most effective personal Wearable air purifier packaged in a new, smaller size. Using digital electronics and the latest battery technology.

It can clean the air of many micron-sized pollutants (e.g. viruses, pollen, smoke, molds, and dust mites) that traditional air purifiers (e.g. HEPA) leave behind.

AirTamer's Power Boost Technology provides 9 times more cleaning power than the competition. It is silent in operation and its extremely energy-efficient technology provides 50 hours of run time on one charge. The unit is easily charged by the included USB cable in only a little over an hour.

Portable air cleaner device AirTamer's design is ultra compact and incredibly versatile.

AirTamer A310 Rechargeable Air Purifier

The AirTamer A310 is the world's most effective personal rechargeable air purifier.
AirTamer's Advanced Ionic Technology emits a constant stream of healthy negative ions that force airborne pollutants away from your personal space giving you a zone of cleaner, healthier air.

AirTamer's state-of-the-art electrostatic purification creates a 3-foot sphere of cleaner, healthier air around your head. It cleans the air of atomic-sized pollutants (e.g. viruses, pollen, smoke, molds, and dust mites) that traditional air purifiers (e.g. HEPA) leave behind.

It's extremely energy-efficient technology provides 150+ hours of run time on one charge. You can wear it around your neck (strap included) since it is smaller than most MP3 players.

AirTamer A320 Personal Air Purifier with Leather Travel Case

The AirTamer A320 is one of the world's most effective personal wearable air purifier.

AirTamer's Advanced Ionic Technology emits a constant stream of healthy negative ions that force airborne pollutants away from your personal space giving you a zone of cleaner, healthier air. Now with a replaceable brush and lanyard, the AirTamer A320's state-of-the-art electrostatic purification creates a 3-foot sphere of cleaner, healthier air around your head.

It cleans the air of atomic-sized pollutants (e.g. viruses, pollen, smoke, molds, and dust mites) that traditional air purifiers (e.g. HEPA) leave behind.

Necklace air purifier AirTamer's power boost technology provides 9 times more cleaning power than the competition.
